Celebrate Developmental Disabilities Awareness Month at the First Annual Jackson County Provider Fair sponsored by Southern Ohio Council of Governments (SOCOG).

The event is free and everyone is invited: people with disabilities, their families and caregivers as well as the general public. Come see what services are available for individuals with DD in Jackson County.

These services may include independent providers, employment opportunities, residential options, habilitation, volunteering, day care, recreation and many other things that bring quality to life.

There will be an art contest, light snacks and door prizes.

Go to www.socog.org for an *art contest application or to check out the list of providers showcasing their services at the Provider Fair. The art contest applications also are available at Jackson County Board of DD or by calling SOCOG at 740-775-5030, ext. 103.
